

## INSTITUTIONAL MEMBERSHIP

# Enhance and strengthen your skills

to be more effective online teachers

The best way to demonstrate proficiency in online learning is with a firm foundation in the principles, best practices and implementation of effective online education programs. OLC can help.

OLC offers Certification and Mastery programs that prepare online instructors or course designers with essential knowledge, understanding and skills. You'll begin applying learnings immediately. And you'll receive documentation certifying your advanced training to share with current or potential employers or supervisors.

### PROGRAM BENEFITS

#### Global in scope

OLC works with universities, corporations, and associations and around the world to improve online education.

#### No boundaries

Because online has no boundaries, our programs are relevant worldwide, offering the flexibility to use learned skills in any industry, anywhere.

#### Market preparedness

Achieving excellence in online teaching makes you more marketable and prepared for whatever your career might bring.

#### Keep current

Programs are continually updated to reflect current best practices and technologies, so graduates can immediately apply learned tools and concepts.

#### A community of peers

OLC graduates are a network of professionals from around the world. Connecting, collaborating and learning together.

### GET CERTIFIED

Our Online Teaching Certificate Program will prepare you for the conception,

implementation and administration of online learning effectiveness best practices. You'll collaborate with, and learn from, recognized experts from a variety of institutions and disciplines. And you'll get actionable feedback for immediate application upon graduation. Certification includes:

- A 10-week foundation course
- Three electives focused on improving overall competency within a specific area of academic focus
- A final presentation

*"The Online Teaching Certificate helped me expand my base beyond the instructors who teach online at my home institution. It was great to interact on common problems and see multiple solutions."*

CRAIG WEIDEMANN, PH.D. VP FOR OUTREACH AND VICE PROVOST FOR ONLINE EDUCATION, PENN STATE

### EARN A MASTERY

A Mastery in Online Education prepares you to take on new challenges, meet new opportunities, and become a better, more informed educator. Not only will earning a mastery have a significant impact on your current courses and students, but it

could also reshape your career and earning potential. Each Mastery Series Program consists of three theory and research application workshops that will help you redesign your effective teaching and learning environment. Eight topics are currently available:

- Blended Learning
- Quality Scorecard
- Online Nursing
- Leadership in Online Learning
- Mobile Learning
- Instructional Design
- Social Media
- Online Science Labs

[FIND OUT MORE at onlinelearning-c.org/learn/mastery-series/](http://onlinelearning-c.org/learn/mastery-series/) Membership also provides early access to research, free webinars, and discounts to conferences and workshops for course designers, teachers and administrators. For more about Membership, visit <http://onlinelearningconsortium.org/join>

*"The Advanced Certificate is well worth the time, even for seasoned online facilitators with two decades of experience."*

DR. JENNIFER SCOTT, CORE FACULTY, SCHOOL OF BUSINESS AND TECHNOLOGY MANAGEMENT - NORTHCENTRAL UNIVERSITY
